# Product Overview & Benefits

## Introduction

Assetly is a scalable, RFID-powered asset management platform that offers full lifecycle control of your physical assets. Hosted on the Microsoft Azure cloud with mobile app support, Assetly brings real-time visibility, accountability, and operational efficiency to asset tracking.

## Why Choose Assetly?

### End-to-End Asset Lifecycle Management

Manages every phase of an asset's life—from tagging to disposal—efficiently and seamlessly.

### RFID-Driven Accuracy:

Enables quick, accurate, and contactless asset tracking using RFID technology.

### Modular & Scalable Design

Allows businesses to activate only the needed features, making it flexible for any size of operation.

### Real-Time Operational Visibility:

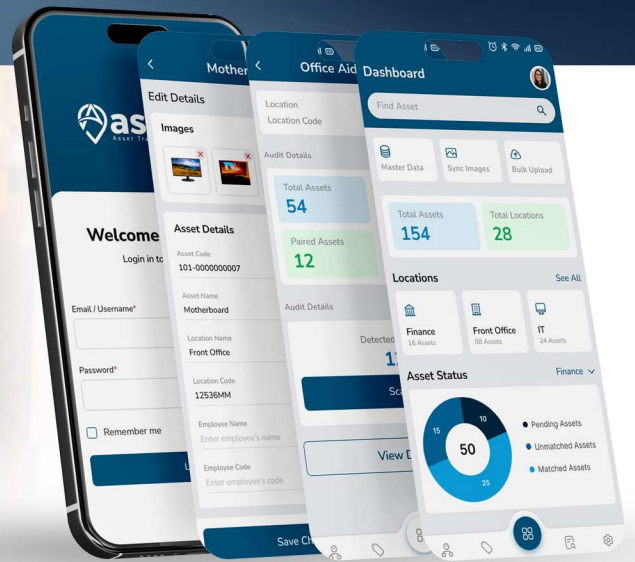

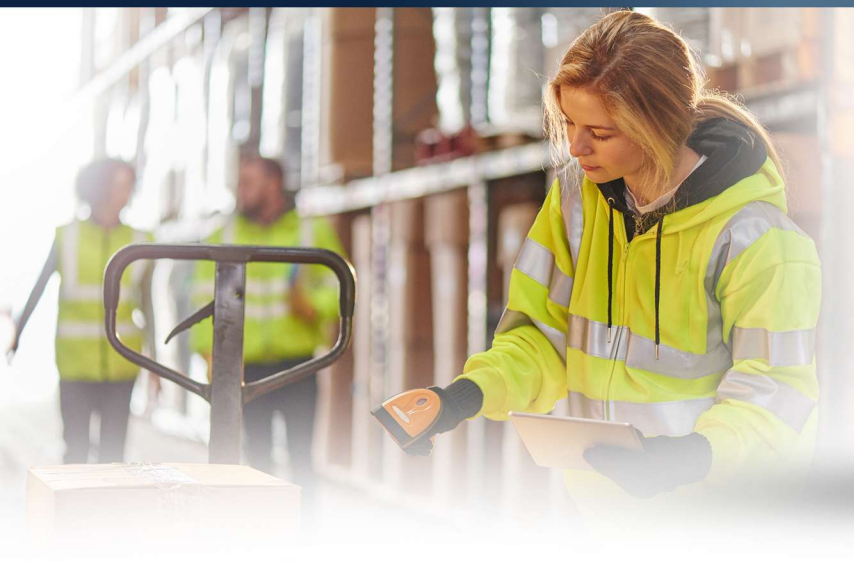

Provides instant insights into asset status and location for better decision-making.

### Ownership & Accountability:

Tracks asset responsibility by assigning them to users or departments, ensuring full traceability.

# Key Modules
